- **Fast, Transparent Communication:** Daily milestones, clear async video/loom updates, and full compliance with Upwork Terms of Service.

02 // CORE COMPETENCIES

Four Pillars of Freelance Delivery

End-to-end execution covering design systems, high-speed code, search crawlability, and automated data pipelines.

Pillar 01

E-Commerce & Web Development

Custom development on Shopify Liquid, WordPress, and Wix Studio. Optimized for fast mobile loading, sub-second LCP, and friction-free checkout flows.

- Shopify Theme Liquid customization, collection filtering, and checkout CRO.
- WordPress lightweight child themes, Gutenberg & Elementor builds.
- Wix Studio interactive service portals, booking funnels, and responsive UI.
- HTML5/CSS3/JS modular code with minimal third-party script bloat.

Pillar 02

Technical & Semantic SEO

Auditing search architecture to ensure Google spiders crawl, understand, and rank your commercial pages without wasted crawl budget.

- Crawl health triage, resolving 4xx/5xx errors, robots.txt, and dynamic XML sitemaps.
- Schema.org JSON-LD structured data (LocalBusiness, Product, FAQPage, Organization).
- Entity-based keyword research, topic clustering, and internal link graph design.
- Toxic backlink audits & Google Search Console disavow workflows.

Pillar 03

AI Marketing Automation & Data Tracking

Eliminating manual data entry and ensuring 100% reliable conversion attribution across ad platforms and CRMs.

- Workflow automation connecting lead forms to CRMs via Make, Zapier & Webhooks.
- Google Tag Manager custom JS triggers and transaction token deduplication.
- Google Analytics 4 custom event funnels and conversion goal tracking.
- Meta Pixel & TikTok Pixel server-side CAPI synchronization.

Pillar 04

Social Commerce & Multichannel Ops

Managing omnichannel retail operations spanning official web storefronts and high-growth social commerce marketplaces.

- TikTok Shop & Shopee store setup, listing SEO, and automated order dispatch.
- Organic content planning, short-form video scripts, and Canva graphic design.
- Repurposing top-performing SEO content into viral bite-sized social assets.
- Catalog inventory sync across platforms to eliminate stockout issues.

03 // FLAGSHIP CASE STUDIES

Measurable Results Across Real Client Platforms

How complex technical challenges were diagnosed, executed, and validated with measurable commercial impact.

B2B International Service

German Butler & Relocation: Mobile-First Theme & Entity Schema

Berlin & Brandenburg

Challenge: German relocation enterprise required clear search entity recognition in Google Maps and fast mobile load times across Berlin districts with minimal DOM baggage.

Execution: Built a lightweight, mobile-first WordPress child theme stripping unnecessary external libraries. Engineered nested MovingCompany and LocalBusiness JSON-LD schemas linking service areas, operating hours, and geo-coordinates. Integrated instant quote calculator.

100% — **Clean Rich Results**
Zero syntax errors on Google Testing Tool

-40% — **DOM Load Friction**
Stripped heavy scripts for sub-second LCP

E-Commerce Technical SEO

Carnival Timepieces: Technical SEO & Brand Top 1 Restoration

Shopify & Search Console

Challenge: Platform suffered from crawl inefficiency and indexation bloat caused by faceted search parameters, legacy toxic backlink spam, and missing rich sitelinks.

Execution: Conducted comprehensive audit with Screaming Frog. Executed disavow workflows in Google Search Console, cleaned faceted parameter URLs, and mapped nested Product & BreadcrumbList schemas.

#1 — **Top 1 Google Rank**
For brand keywords with rich sitelinks

5.3% — **Average Organic CTR**
Achieved within first 1.5 months

Content SEO & Growth

Jobsnew Platform: Semantic SEO Content Silos & Traffic Surge

Organic Growth

Challenge: Capturing high-intent organic search volume in a fiercely competitive employment and career advisory vertical without relying on paid advertising.

Execution: Designed semantic content silos around high-volume career queries. Researched, produced, and published **207 semantic SEO articles**. Structured an internal link graph channeling link equity toward core conversion pages.

+56% — **Traffic Surge**
From 12.3k to 19.2k monthly organic visits

207 — **Targeted Articles**
>50% ranked in Google Top 1, Top 3 & Top 10

04 // ADDITIONAL EXPERIENCE

Diverse Industry Deployments

Specialized contract work covering Shopify Liquid theme tuning, agency technical audits, and social retail channels.

Shopify Liquid

Freelance Shopify Themes, App Audits & Checkout Optimization

Active Delivery

Developing custom, responsive Shopify Liquid theme sections, configuring multi-currency checkout funnels, auditing third-party app scripts (reviews, upsells, inventory sync) to prevent DOM blockage, and resolving Liquid syntax deprecations for international brands.

Deliverables: Liquid Section Architecture • Checkout CRO • 3rd-Party Script Audit • JSON-LD Product Schema

Technical SEO

Yatame Digital Agency: Technical SEO Audits & Crawl Budget Triage

Agency Work

Conducted full-site technical health diagnostics for client websites. Cleaned legacy URL redirect chains, resolved 4xx/5xx server response errors, configured optimal robots.txt instructions, and deployed dynamic XML sitemaps to maximize search crawl efficiency.

Deliverables: Screaming Frog Crawl Logs • 301 Redirect Mapping • Canonical URL Hygiene • Site Speed Optimization

Omnichannel Ops

Khăn Giấy Mariel: Social Commerce & Marketplace Dispatch Pipelines

Retail Operations

Managed multi-channel retail operations connecting TikTok Shop and Shopee Mall. Produced organic short-form product video scripts and Canva graphics, optimized product search listings, and ensured timely automated order dispatch.

Deliverables: TikTok Shop & Shopee Operations • Product SEO Listings • Short-Form Video Assets • Inventory Coordination

FREELANCE CONTRACT WORKFLOW
